The Inspiration: Facets of Light and Form

The Aesthetic: Pyramid by Patty Madden brings the sculptural precision of folded forms to the wall, creating a geometric composition with an elegant vintage sensibility. Intersecting triangular facets are filled with fine linear texture, their changing directions catching the light and giving the surface a sense of movement and dimension. The design evokes the artistry of folded paper and the angular silhouettes of mid-century interiors, softened by subtle tonal variation. Pyramid transforms a timeless geometric idea into a sophisticated performance wallcovering for contemporary spaces.
