The Inspiration: Geometric Vertical Lattice

The Aesthetic: Trackney by Patty Madden reimagines the intricate markings of premium boots and bags through a digitised pattern, bringing a refined sense of texture and rhythm to interior walls. Subtle tonal variations soften its organic detail, giving the surface an inviting depth and creating a versatile backdrop for furnishings and architectural elements. Its restrained character lends warmth to contemporary spaces and an understated elegance to more traditional settings. Designed for commercial interiors, Trackney pairs its distinctive decorative appeal with durable Type II performance.
