Inspiration: Acoustic resonance; sound in play

The Aesthetic: Layered curves; dynamic surfaces

Xylos is inspired by the kinetic energy of resonance frequency, the playful interaction of echoes, and the undulating movement of dynamic sound waves. This joyful pattern transforms a wall surface into a sophisticated canvas of "music" sure to engage onlookers with its combination of distinct texture and strong geometric design. Elevate your space with Xylos—where the rhythm of sound meets the artistry of design.

Commercial Performance: Enduring Type II Patina

Xylos delivers an exceptional blend of sophisticated structural design and masterfully engineered resilience, ensuring it is perfectly tailored for corporate, hospitality, and retail environments. Its resilient Type II construction effortlessly preserves its refined aesthetic in high-density areas prone to heavy traffic.
